PART ONE - COVERAGE AND APPLICATION MATTERS

This Agreement applies to members of the Association who fall within the coverage clause of this Agreement.

Senior medical and dental officers are a distinct, vocationally trained, occupational employee group. District health boards (DHBs) as employers benefit from these employees having significant influence in their internal decision-making. The parties recognise that both senior medical and dental officers and DHBs have different roles, responsibilities and distinctive features.

Both the Association and DHBs are committed to working together to establish and strengthen this engagement with and empowerment of senior medical and dental officers.

Both the Association and DHBs recognise that a relationship between DHBs and senior medical and dental officers based on constructive engagement between them and empowerment of the latter has positive benefits for both recruitment and retention of employees.

This collective agreement is the foundation document for this underlying engagement and empowerment relationship between DHBs and senior medical and dental officers which is integral to the internal culture of each DHB.

1 UNDERLYING PRINCIPLES

- 1.1 The parties acknowledge the fundamental importance of the need to promote and establish clinical leadership within the workplace consistent with the principles of engagement in the Time for Quality agreement between the Association and all District Health Boards (refer Clause 2) and the associated need to establish effective employer-employee partnerships, based on good faith, mutual respect and constructive engagement.
- 1.2 Accordingly the parties will actively promote and encourage open discussion and collegial and collective responses to workplace challenges and issues.
- 1.3 The parties recognise that employees are constrained by their ethical and professional obligations and public expectations not to refuse treatment to patients in need of their professional skills.
- 1.4 The parties acknowledge the increasingly demanding environment in which employees are required to practise. Accordingly the parties undertake to do what they reasonably can to ensure the workplace is well resourced, professionally supportive and conducive to a very high standard of clinical practice.

2 TIME FOR QUALITY

The parties note the Tripartite Process involving the Government, the DHBs and the Council of Trade Union affiliated unions which is based on the Health Sector Relationship Agreement and which includes the Time for Quality Document. Consistent with this relationship the principles of engagement are as follows:

- Employee/management partnership is founded on teamwork and respect.
- Managers will support employees to provide leadership in service design, configuration and best practice service delivery.
- Managers will support employees to ensure recognised competency and credentialing standards are met.
- Managers and employees affirm that quality care drives the system to optimise patient outcomes.
- Managers and employees will collaborate to meet both the “patient test” and the “whanau test” which means the patient experience is optimised for the patient and in a culturally appropriate way.
- Managers and employees explicitly agree that decision-making and responsibility will be devolved to the appropriate level.
- Managers and employees accept that there will be some services that can more appropriately be delivered regionally or nationally to effectively meet patient needs.
- Employees will support managers to operate services within the resources available.

3 NATURE OF AGREEMENT

- 3.1 This is a collective agreement, inclusive of the attached Appendices and Schedules, negotiated under the provisions of the Employment Relations Act 2000.
- 3.2 It sets out the core terms and conditions of employment for all senior medical and dental officers who fall within its coverage clause.
- 3.3 It provides the minimum terms and conditions of employment that underpin each employee's job description and any additional terms and conditions of employment that may be or have been negotiated and agreed between an employer and employees on an individual or group basis.
- 3.4 The terms and conditions of this multi-employer collective agreement replace all terms and conditions of previous collective agreements except those specifically stated in this document (eg, long service leave, retiring gratuities).

- 3.5 Any other agreement between an employer and one or more employee(s) that provides for terms and conditions of employment that are as favourable or more favourable in respect of that employee or those employees is hereby deemed to be not inconsistent with this Agreement.

11 DEFINITIONS

In this Agreement:

- 11.1 "Dental Specialist" means any dental practitioner who is registered by the Dental Council under the Health Practitioners Competence Assurance Act 2003 as a dental specialist in one of the approved branches of dentistry and who is employed in that branch of dentistry or in a similar capacity with minimal oversight.

- 11.2 “Dental Officer” means any dental practitioner who is registered under the Health Practitioners Competence Assurance Act 2003 and who falls within the coverage clause of this Agreement and who is not a dental specialist.
- 11.3 “Medical Specialist” means any medical practitioner who is vocationally registered by the Medical Council under the Health Practitioners Competence Assurance Act 2003 in one of the approved branches of medicine and who is employed in either that branch of medicine or in a similar capacity with minimal oversight.
- 11.4 “Medical Officer” means any medical practitioner who is registered under the Health Practitioners Competence Assurance Act 2003 and who falls within the coverage clause of this Agreement and who is not a medical specialist.
- 11.5 “Full-time employee” means any employee who is employed under this Agreement for forty (40) hours or more on average each week.
- 11.6 “Non-clinical duties” means duties not directly associated with the diagnosis or management of a particular patient. They may include administration, attendance at departmental meetings, formal teaching sessions, audit or other quality assurance activities and personal professional development, including journal reading and research. Duties associated with managerial or leadership roles [refer Clause 48.2(e) – Section 5] are not to be included as part of an employee’s non-clinical time.
- 11.7 “Ordinary Hourly Rate” means the hourly rate derived by dividing the employee’s nominal annual base salary rate by 2086.
- 11.8 “Part-time employee” means any employee who is employed under this Agreement for less than forty (40) hours on average each week.
- 11.9 “Redundancy” means a situation where an employee’s employment is terminated or changed, whether by an increase or decrease in hours, a change from full-time to part-time or from part-time to full-time and the termination or change is attributable to the operational requirements of the employer. However, where a reduction in hours does not reduce the employee’s weekly average to below 40, severance shall not apply.

- 11.10 "Service" means all total aggregated service as a salaried medical or dental practitioner with any New Zealand district health board (or predecessors), university, government department or ministry, statutory body, or the armed services. Provided that this definition shall not apply for the purposes of any grandparented entitlements e.g. long service leave and retiring gratuities, or any other service-related entitlement in this Agreement that expressly includes its own definition of qualifying service.

Further, placement on the salary scale will be in accordance with Clause 12.2(a) and (b) below. The length of service for parental leave (Clause 28 below) means current continuous service (i.e., broken by periods of no more than three months) in the employment of the employer.

- 11.11 "Full pay" means the employee's usual gross fortnightly earnings (based on their agreed job size and current remuneration schedule).

PART TWO - REMUNERATION & HOURS OF WORK

12 SALARIES

12.1 Employees shall be entitled to an annual base salary rate drawn from one of the salary scales in Clauses 12.4(a) and 12.4(c), below. The rates in these scales are for full-time employees with an agreed job size of 40 ordinary hours a week.

12.2 Advancement through Salary Scales

- (a) The initial placement of an employee on the applicable salary scale shall be negotiated between the prospective employee and employer, in consultation with the clinical director (or equivalent) of the applicable service, taking into account 12.2(b) below and factors such as years of relevant experience and qualifications.
- (b) The parties recognise that the new salary scales introduced from 1 January 2012 for Medical and Dental Specialists and Medical and Dental Officers have removed the bottom three steps of the previous scales. To avoid potential inequities in placement of new employees it is agreed that initial placement should take into account relevant years of experience and relevant qualifications, and align with step placement of the existing employed workforce with similar levels of qualification and experience.
- (c) Thereafter, advancement through the salary scales shall be annual, subject to satisfactory performance of the employee's agreed duties and responsibilities.
- (d) If the employer begins to develop concerns that an employee's performance may not justify advancement to the next step, those concerns must be raised with the employee in writing at the earliest practical opportunity before the due date of advancement to provide the employee with a reasonable opportunity to address them. An employee who is not notified of any such concerns before their due date shall be entitled to advance to the next step on their due date.
- (e) An employee who is declined salary advancement may seek a review of that decision by a review panel whose members shall be agreed between the employer and the Association.
- (f) Employees shall not be denied advancement if their failure to achieve satisfactory performance of agreed duties and responsibilities was due to factors beyond their control.

12.3 An employee's actual annual salary shall be calculated by multiplying their ordinary hourly rate (as defined in Clause 11 of this Agreement) by the number of hours in their agreed job size for a full year. Provided that the method of calculating an employee's actual annual salary (by using a system of "tenths" or "sessions") as contained in the previous collective agreement (refer Schedule two of that agreement) shall continue to apply to those employees for whom it is more advantageous until those employees' job size is changed by mutual agreement, from which point the provision in Clause 12.3 for salary calculation shall apply.

- (a) Notwithstanding any of the provisions of this clause, an employee on approved parental leave under Clause 28 of this Agreement shall receive their annual salary advancement on the due date, when it falls during the period of leave.
- (b) Subject to meeting the threshold of satisfactory performance an employee is entitled to receive their annual salary advancement unless they have had more than six months of approved unpaid leave in the period under review.

13 HOURS OF WORK & JOB SIZE

- 13.1 An employee's hours of work and job size shall be mutually agreed and shall objectively reflect the requirements of the service and the time reasonably required for the employee to complete their agreed duties and responsibilities, as set out in their job description.

 - (b) Where an applicable previous collective agreement provided higher hourly, or equivalent, rates than those specified above in this Agreement, those higher rates will continue to apply for all employees employed by that employer.
 - (c) Those district health boards where higher hourly, or equivalent, rates in the previous applicable single employer collective agreements apply for current and new employees are Waitemata (double the ordinary hourly rate) and Bay of Plenty (triple hourly rate of Step 2 (Step 1 from 1 January 2012) of clause 12.4(a) or Step 3 (Step 1 from 1 January 2012) in Clause 12.4(c) above, as applicable).
 - (d) In the event that an employee(s) is already receiving additional remuneration for rostered after-hours on-call duties from an employment agreement not covered by sub-clauses (b) and (c) above, it is not the intention of the parties that the employee(s) will be paid twice for these duties.

13.4 Absence of Resident Medical or Dental Officers

- (a) In situations when employees are requested to undertake additional duties arising from the immediate and unexpected absence of a resident medical officer or dental officer the following arrangement shall apply. The parties acknowledge that such occasions will be rare but when they do occur the parties agree that the employee concerned shall be paid for that additional work at a premium hourly rate calculated on step 9 (step 6 from 1 January 2012) as a minimum of the specialist salary scale divided by 2086 and multiplied by 2.
- (b) This clause shall only apply in circumstances where a resident medical officer is normally on duty and not in circumstances where a resident medical officer is not usually employed by the employer or where the impact of the absence of the resident medical officer is minimal and/or can be covered by another medical officer or resident medical officer.

- 14.1 An employee on an after-hours' roster shall be paid an availability allowance in accordance with Schedule 1.
- 14.2 The level of the allowance shall take into account the frequency of the call, the immediacy of the required response, the immediacy required for attendance at work, and the availability and experience of resident medical and dental officers.

15 RECRUITMENT AND RETENTION BENEFITS

- 15.1 The employer may agree to provide additional benefits, including special allowances, to employees in those services where recruitment and retention has or may become a serious problem.
- 15.2 The level and nature of any recruitment and retention benefits that may be provided shall be fair and transparent and have regard to similar recruitment and retention benefits provided by the employer in other services.

- 27.2 This provision includes any statutory entitlement to paid special leave for similar purposes.
- 27.3 An employee who falls ill during a period of approved annual leave may be entitled to paid sick leave for the period of that illness and have those days credited back to their annual leave balance. The employer may require a medical certificate where the period of the illness exceeds three working days. Similarly an employee who suffers bereavement during a period of annual leave, for which they would otherwise have been entitled to paid bereavement leave under Clause 27.1, shall have that time credited back to their annual leave record.
- 27.4 Where the absence on account of illness or accident exceeds five working days the employer may require the employee to produce a medical certificate for verification. The employer shall have the right to require the employee to undergo an independent medical assessment paid for by the employer.
- 27.5 When a period of leave on account of accident or illness exceeds three months the employer is entitled to seek a review of the employee's condition and likely fitness to return to work. The review will be done by a representative of the employer, a representative of the employee and a mutually agreed medical practitioner, or such other group as the employer and employee may agree.
- 27.6 The reviewers shall advise the employer on the prospects and timing of the employee being fit to return to normal or other duties.

27.7 On receipt of that advice, the employer after consulting the employee and taking into account any other relevant information, shall decide whether to extend the period of sick leave (with or without pay) or to terminate the employment. Termination in these circumstances shall be on notice.

28 PARENTAL LEAVE

28.1 General Entitlement

- (a) Employees are entitled to up to twelve months' parental leave without pay for births and adoptions in accordance with the Parental Leave and Employment Protection Act 1987.
- (b) Parental leave of up to six months is to be granted to employees with less than one year's service at the time of commencing leave.
- (c) Employees intending to take parental leave are required to give not less than three months' notice in writing and the application is to be accompanied by a certificate signed by a registered medical practitioner certifying the expected date of delivery. The provision is waived in the case of adoption or circumstances outside the control of the employee.
- (d) Employees are required to give at least one month's notice of return to work.
- (e) The maximum period of parental leave may be taken by either the employee exclusively or may be shared by the employee and their partner either concurrently or consecutively. This applies whether or not one or both partners are employed by the employer.

28.2 Paid Parental Leave

- (a) Where an employee is granted leave in terms of Clause 28.1 above and assumes the primary care of the child(ren), he/she shall be paid for a period of up to six weeks, beginning at the start of the leave period. Where both partners choose to share the primary care, the payment shall be split (irrespective of whether or not both are employed by the employer) in accordance with those employees' wishes.
- (b) The partner of the primary caregiver shall be granted paid leave of up to two weeks. Such leave shall be continuous and shall be taken within a period commencing three weeks prior to the expected date of delivery (adoption) and ending three weeks after the actual date of delivery (or adoption). Variations to this period may be agreed between the employee and the employer in order to meet the special needs of the child such as premature birth or placement prior to adoption. An employee availing him or herself of this entitlement shall not be eligible for paid parental leave pursuant to sub-clause (a) above.

- (c) Payments in sub-clauses (a-b) above shall be calculated at the rate applying for the six weeks immediately preceding the cessation of duty. Employees who resign from their employment with the employer without returning to work will be required to refund the paid leave that they received.
- (d) Where, for reasons pertaining to the pregnancy, an employee, on medical advice and with the consent of the employer, elects to work reduced hours at any time prior to the taking of leave, then the calculation of payment for the first six weeks of leave shall be based on the proportion of full-time employment immediately prior to any such enforced reduction in hours.
- (e) Where an employee is absent on parental leave for less than six weeks, he/she shall be paid as calculated in sub-clause (c) above for the period of leave taken.
- (f) An employee returning from parental leave may request the employer to vary the proportion of full-time employment from that which applied before the leave was taken. The granting of such a request shall be at the discretion of the employer.

28.3 Job protection

- (a) Subject to 28.4 below, an employee returning from parental leave is entitled to resume work in the same position or a similar position to the one they occupied at the time of commencing parental leave. A similar position means a position:
 - (i) at the equivalent salary,
 - (ii) at the equivalent job size and hours of work;
 - (iii) in the same location or other location within reasonable commuting distance; and
 - (iv) involving responsibilities broadly comparable to those experienced in the previous position.
- (b) Where applicable, employees shall continue to be awarded their salary advancement when their date falls during absence on parental leave.
- (c) Parental leave shall be recognised towards service-based entitlements, ie: annual leave and sick leave. However, parental leave will not contribute to Retiring Gratuities allowance calculations.

28.4

- (a) Where possible, the employer must hold the employee's position open or fill it temporarily until the employee's return from parental leave. However in the event that the employee's position is a "key position" (as contemplated in the Parental Leave and Employment Protection Act 1987), the employer may fill the position on a permanent basis.

- (b) Where the employer is not able to hold a position open, or to fill it temporarily until an employee returns from parental leave, or fills it permanently on the basis of it being a key position, and, at the time the employee returns to work, a similar position (as defined in 28.3 (a) above) is not available, the employer may approve one of the following options:
- (i) an extension of parental leave for up to a further 12 months until the employee's previous position or a similar position becomes available; or
 - (ii) an offer to the employee of a similar position in another location (if one is available) with normal transfer expenses applying; if the offer is refused, the employee continues on extended parental leave as in 28.4(b)(i) above for up to 12 months; or
 - (iii) the appointment of the employee to a different position in the same location, but if this is not acceptable to the employee the employee shall continue on extended parental leave in terms of 28.4(b)(i) above for up to 12 months: provided that, if a different position is accepted and within the period of extended parental leave in terms of 28.4(b)(i), the employee's previous position or a similar position becomes available, then the employee shall be entitled to be appointed to that position; or
 - (iv) where extended parental leave in terms of 28.4(b)(i) above expires, and no similar position is available for the employee, the employee shall be declared surplus under clause 45 of this agreement.
- (c) If the employee declines the offer of appointment to the same or similar position in terms of sub clause 28.3(a) above, parental leave shall cease.
- (d) Where, for reasons pertaining to the pregnancy, an employee on medical advice and with the consent of the employer, elects to work reduced hours at any time prior to confinement, then the guaranteed proportion of full-time employment after parental leave shall be the same as that immediately prior to such enforced reduction in hours.
- (e) Parental leave absence filled by temporary appointee - If a position held open for an employee on parental leave is filled on a temporary basis, the employer must inform the temporary appointee that their employment will terminate on the return of the employee from parental leave.
- (f) Employees on parental leave may from time to time and by agreement work occasional duties during the period of parental leave and this shall not affect the rights and obligations of either the employee or the employer under this clause.

31.5 The bargaining fee shall be deducted annually in four equal instalments over four successive pays (over an eight week period) and remitted to the Association without delay. The first deduction shall be made from the employee's pay in the next pay period, immediately following the date on which this Agreement comes into force (28 February 2012).

31.6 If an employee notifies the employer in writing within the prescribed time that they do not agree to pay a bargaining fee, their terms and conditions of employment will remain as they were before this Agreement came into force, until such time as they may be varied by agreement with the employer.

With the employer's consent, (which shall not be unreasonably withheld) the Association's authorised representatives may enter the employer's property at all reasonable times to meet union members and prospective union members to discuss the negotiation, re-negotiation, application and enforcement of this Agreement. - (c) The employer and employees are committed to fostering this environment, and to this end will work together to implement quality improvement initiatives including credentialling.

35.2 Credentialling

This provision may be accumulated for three years entitlement. This accumulation may be increased for up to five years subject to submission of a specific plan for the utilisation of the accumulated period and the approval of the employer which should not be unreasonably withheld.
- (b) Employees shall be reimbursed actual and reasonable expenses of up to \$16,000 per annum(GST exclusive) and accumulated on the same basis as the working days (a) above. This reimbursement is pro rata for part-time employees except that part-time employees whose only income from medical or dental practice is derived from their employment with one employer shall be entitled to the full reimbursement.
- (c) Employees who are enrolled in two or more maintenance of professional standards (MOPS) programmes shall be reimbursed up to an additional \$500 per annum (ie, \$16,500).

The Association and other employers may agree to remove this limit during the term of this Agreement including on an agreed trial basis.

- (b) Employees who work for more than one district health board and whose combined job size with those district health boards is full-time (as defined under this Agreement) shall be reimbursed the full amount, with each employer sharing that amount in the same proportion that their employee's job size bears to the employee's total job size with all district health board employers.
- (c) Employees who work for more than one district health board and whose combined job size with those district health boards is less than full-time (as defined under this Agreement) and who have no

- (d) Part-timers who are employed by only one district health board and have no other medical or dental practice shall be entitled to the full amount;
- (e) Other part-time employees shall be entitled to the full amount pro rata, according to their job size.

Note: CME expenses will not exceed 100% of entitlement

36.4 Secondment

Employees may apply for a secondment of two weeks every three years to a recognised unit for the purpose of professional development and upgrading skills which is relevant to their duties and responsibilities.

- (d) Applications for participating in the programme in advance of the standard eligibility criteria (in other words, attaining six years of service) can be considered by a sub-committee of the Clinical Board (or equivalent body) which will include a nominee of the Senior Medical Staff Committee that is recognised in this role by the Association. The sub-committee will make a recommendation to the Chief Executive. In making a recommendation to the Chief Executive, the sub-committee will consider the relevance of the application to the employee's job description, service requirements, funding arrangements and the time at which such a programme can be taken.

- (e) The approved sabbatical programme is to be taken within six years of it becoming available, and where practical the planned dates for the programme must be agreed with the employer at least one year in advance.
- (f) The programme intended by the employee will be subject to approval, which will not be unreasonably withheld, by the relevant clinical director and service or group manager.

38 INTELLECTUAL PROPERTY RIGHTS

Those intellectual property right arrangements which existed in previously applicable collective agreement that applied immediately prior to this Agreement, shall continue to apply. These arrangements are contained in Schedule 5.

39 PROFESSIONAL & PATIENT RESPONSIBILITY & ACCOUNTABILITY

The parties recognise:

- (a) the primacy of the personal responsibility of employees to their patients and the employee's role as a patient advocate;
- (b) that employees are responsible and accountable to the statutory authorities such as the Medical and Dental Councils, established under the Health Practitioners Competence Assurance Act 2003, as applicable, including their relevant policy statements and guidelines; and
- (c) that employees are responsible and accountable to the ethical codes and standards of relevant colleges and professional associations.

40 PUBLIC DEBATE & DIALOGUE

- 40.1 In recognition of the rights and interests of the public in the health service, the employer respects and recognises the right of its employees to comment publicly and engage in public debate on matters relevant to their professional expertise and experience.
- 40.2 In exercising this provision employees shall, prior to entering into such public debate and dialogue, where this is relevant to the employer, have advised and/or discussed the issues to be raised with the employer.

41 PATIENT SAFETY

- 41.1 Employees who have serious concerns over actual or potential patient safety risks shall make every reasonable effort to resolve them satisfactorily with the employer.
- 41.2 Where either the Association or the employer believes that the serious concerns remain unresolved, they shall develop a process for resolution of these concerns.

42 INVESTIGATIONS OF CLINICAL PRACTICE

- 42.1 The purpose of this clause is to address performance concerns relating to clinical practice and its impact on patient safety. It is not intended for use where the concern, on the face of it, does not reflect adversely on the practitioner's clinical competency.
- 42.2 The employer shall investigate fairly, thoroughly and as quickly as reasonably possible any complaints it receives or concerns it may have that raise serious questions about the employee's standards of clinical practice.
- 42.3 Before undertaking such an investigation, at the earliest practical opportunity after becoming aware of the complaint or concern, the employer shall advise the employee of the complaint or concern and that it proposes to undertake an investigation. At the same time, the employer shall give the employee written advice of the concern and/or, where applicable, a copy of the complaint and advise them of the identity of the complainant or person who brought the particular concern to the notice of the employer.
- 42.4 Before making a final decision to proceed with an investigation, the employer shall give the employee reasonable time to comment. At this stage in the process, the employer may decide not to investigate the concerns further itself but to refer them to the appropriate external professional body.
- 42.5 If the employer decides to proceed with an investigation, the employer must closely consult the employee about the terms of reference of the investigation and who the investigator or investigators will be.

- 42.6 The employer shall ensure the investigation is undertaken as sensitively as reasonably possible with respect to the employee and will encourage the employee to seek appropriate professional and other support throughout the process.
- 42.7 Pending the results of the investigation, if the employer believes on reasonable grounds that the nature of the complaint or concern raises a serious and ongoing risk of harm to a third party should the employee continue to practice without restriction, after consulting the employee, it may impose restrictions on the employee's clinical practice, provided that:
- (a) Such restrictions shall be kept to the absolute minimum consistent with the need to avoid risk or harm to a third party. During the period of the restrictions, the employee shall continue with their other duties and receive full pay for all duties they would otherwise have undertaken.
 - (b) The restrictions shall automatically lapse after three weeks, at which time the employee shall resume normal duties, unless in the meantime, a panel of up to three senior medical or dental practitioners, at least one of who was nominated by the affected employee, has reviewed the need for the restrictions and recommended they be maintained. The panel may recommend that the restrictions be varied.
- 42.8 An employee's practice may not be restricted for longer than three months unless a second panel of up to three senior medical or dental practitioners, none of whom shall be employees of the employer, has reviewed and endorsed in writing the need for such restrictions. The employee whose practice is under investigation has the right to nominate at least two members of the second panel, which shall have the authority to lift, maintain or vary the restrictions.
- 42.9 The employer shall meet the costs of conducting these investigations and reviews.
- 42.10 The parties acknowledge that for the purposes of employment law any decision to impose, extend or vary restrictions on an employee's practice is ultimately a decision of the employer.
- 42.11 The employer and the affected employee may agree to vary any of these provisions.

PART SIX - GENERAL TERMS

43 CONSULTATION

- 43.1 The parties to this Agreement acknowledge that change in the health service may be required to ensure the efficient and effective delivery of health services. Furthermore, the parties recognise that they have a mutual interest in ensuring that health services are provided efficiently and effectively and that each has a contribution to make in this regard. The involvement of employees will contribute to:
- (a) improved decision-making;
 - (b) greater co-operation between employees and the employer; and
 - (c) a more harmonious, effective, efficient, safe and productive workplace.
 - (d) Accordingly the parties commit themselves to a process of regular consultation with one another and affected employees on all matters of mutual concern and interest.
- 43.2 In accordance with this acknowledgement and commitment, when an employer proposes any review that might result in significant changes to either the structure, staffing or work practices affecting employees the employer shall invite the employees concerned to participate in the review at the earliest practical opportunity. When the implementation of decisions arising from any such review might result in redundancy, the procedures in Clause 45 shall be adopted.
- 43.3 Before the employer undertakes any review which might impact on the delivery or quality of clinical services, it shall consult and seek the endorsement of the Association as to the purpose, extent, process and terms of reference of such review and will give due regard to the Association's advice.
- 43.4 The employer will advise the Association and affected employees of the recommendations of any concluded review in order to ascertain whether there are any serious professional or clinical concerns. In the event of such concerns the employer will either endeavour to satisfactorily resolve them with the Association and affected employees or reach agreement over a process for resolution.

44 TERMINATION OF EMPLOYMENT

Employees shall be given three months' notice of termination of employment and shall give three months' notice of resignation or retirement. This period of notice may be reduced or extended by agreement between the employer and employee. The employer may summarily terminate the employee's employment for serious misconduct.

45 REDUNDANCY

45.1 The employer shall advise the Association in writing of any impending redundancy at least one month before it is expected to occur. The purpose of this period is to give reasonable time for the parties, including the affected employee(s), to discuss the situation, consider the options available to them and to negotiate an agreement.

(a) Options that might be considered when a redundancy exists include, but are not necessarily limited to:

- No change or reconfirmation in present position;
- Reassignment or redeployment to a new role;
- Reduction in hours, with severance based on loss of hours provided that no payment shall be made for a reduction in hours worked on rostered after-hours on-call duties [refer Clause 13.3];
- Natural attrition;
- Leave without pay;
- Early retirement;
- Retraining;
- Termination of employment and payment of severance;
- Any combination of the above

(b) To ascertain which of the above should be applied to any affected individual the following principles should apply:

- (i) Where reconfirmation (ie, appointment to the same job, with the same conditions, albeit in a reconfigured service) can occur, that option shall be adopted and no severance is payable.
- (ii) Severance will not be paid where the employee remains in essentially the same position but agrees to an increase in their hours or job size.

- (c) Severance payments will be calculated according to the following formula:
- Six weeks' base salary for the preceding 12 months of service or part service where the employee has had less than 12 months' service; plus
 - Two weeks' base salary for the preceding 12 months multiplied by the number of years of service minus one, up to a maximum of 19; plus
 - Where the period of total aggregated service is less than 20 years, 0.333 per cent of base salary for the preceding 12 months multiplied by the number of completed months in addition to the completed years of service; plus
 - For an employee who has ten or more years' qualifying service, a retiring gratuity in accordance with any entitlement they might have under Clause 20.

45.2 Technical Redundancy

If the employee's employment is being terminated because of the sale or transfer of the whole or part of the employer's business, nothing in this agreement shall require the employer to pay compensation for redundancy to the employee if the person acquiring the business or the part being sold or transferred:

- (a) Has offered the employee employment in the business or the part being sold or transferred; and
- (b) Has agreed to treat service with the employer as if it were service with that person and as if it were continuous; and
- (c) The conditions of employment offered to the employee by the person acquiring the business or the part of the business being sold or transferred are the same as, or no less favourable than, the employee's conditions of employment, including:
 - any service related conditions; and
 - any conditions relating to redundancy; and
 - any conditions relating to superannuation;under the employment being terminated; and
- (d) The offer of employment by the person acquiring the business or part of the business being sold or transferred is an offer to employ the employee in that business or part of the business either:
 - In the same or similar capacity as that in which the employee was employed by the employer; or
 - In any capacity that the employee is willing to accept.

46 RIGHTS OF PRIVATE PRACTICE AND CONFLICT OF INTEREST

- 46.1 The employer recognises the right of employees to engage in private practice but not in such a way that would give rise to a conflict of interest.
- 46.2 Employees exercising this right shall not knowingly allow it to affect adversely the performance of their contractual obligations with the employer. On request the employee shall advise the employer of either their intention to commence private practice or that they are undertaking private practice work.
- 46.3 Before the employee does anything that might compete against the material interests of the employer, e.g., compete against the employer for contestable funding, the employee shall consult with the employer in an effort to avoid a conflict and reach agreement on the matter.
- 46.4 The parties accept that in the absence of their reaching an agreement in respect of any possible conflict of interest, legal remedies are available to them, including the option of termination of employment.

47 VACANCIES & LOCUMS

- 47.1 The employer undertakes to take reasonable steps to fill actual senior medical and dental officer vacancies within a service, including vacancies or gaps on after-hours call rosters, as soon as they occur or are reasonably foreseen, except where the employer and affected employees reach agreement over satisfactory alternative arrangements.
- 47.2 When, after considering the advice of the relevant clinical director and affected employees, giving due regard to workload pressures, the employer requires a locum then the employer shall be responsible for the provision of a locum. Should employment of a locum not be feasible then alternative arrangements for service delivery shall be made and/or appropriate compensation for increased workload or work pressure shall be negotiated with the employee(s) affected.
- These alternative arrangements and/or compensation shall be either in accordance with the provisions of the previous applicable single employer collective agreement or based on another agreed outcome.
- 47.3 Notwithstanding any of the above, an employee shall not be required to undertake additional duties and responsibilities caused by an absence of an employee(s) on their on-call roster beyond a reasonable period of time.

48 JOB DESCRIPTIONS

48.1 All employees are entitled to mutually agreed job descriptions. The following is provided as the recommended guideline. For ease of reference and clarity, the job description should have several distinct sections:

- (a) a list of clinical activities required of the particular position;
- (b) an express statement about the standards against which the clinical performance will be assessed and judged;
- (c) a list of non-clinical or “other professional” activities required of the particular position;
- (d) a summary of key administrative details;
- (e) a description of clinical or other management duties, if the position has a clinical leadership or management function;
- (f) if appropriate, an agreed statement or list of specific objectives for the particular position; and
- (g) other relevant matters and legislation such as the Treaty of Waitangi and the Health and Safety in Employment Act.

48.2 Job Descriptions should include the following sections;

- (a) Section One

This section should contain the following minimum information:

Employee’s name

Designation:

This should be a succinct statement of the role, including any sub-specialist or special interests e.g. Specialist Urologist; Specialist General Surgeon or Specialist General Physician with an interest in Rheumatology; Specialist Child & Adolescent Psychiatrist.

Reporting to:

This will contain a clear statement of the position(s) to whom the employee reports and for what purposes, ie, clinical matters and other matters. It is unlikely there will be more than two such positions. For all clinical matters, the “manager” is likely to be a senior medical or dental officer within the organisation and would ordinarily be the clinical leader or head of department (or applicable designation within each employer).

Level of Authority:

This should contain a clear statement of any delegations (eg, staff and/or financial) this position may hold.

Nature of Appointment:

This will be a statement as to whether the position is full-time, part-time, a locum or some other form of fixed term appointment. It should also record the total “size” of the job.

Weekly or Fortnightly Timetable:

At the time of appointment, each employee is entitled to a schedule of fixed or routine duties, including a weekly timetable. It will also record the free days or half-days in each week.

Summary of On-Call Duties:

If the employee is required to be on an after-hours' roster, there should be a clear statement to that effect. This section should also state the size or frequency of the roster e.g. 1:4 or 1:8 and the usual level of resident medical officer support that clearly indicates whether the call is 1st or 2nd call.

Variation to Job Descriptions:

Job descriptions shall be varied from time to time to record any agreed changes to rosters and staffing levels.

(b) Section Two

This section will contain a statement to the following effect:

The medical (or dental) practitioner is required to undertake their clinical responsibilities and to conduct themselves in all matters relating to their employment, in accordance with best practice and relevant ethical and professional standards and guidelines, as determined from time to time by:

- the New Zealand Medical Association's code of ethics;
- the practitioner's relevant medical college(s) and/or professional association(s);
- the New Zealand Medical (or Dental) Council;
- the Health & Disability Commissioner; and
- the employer's policies and procedures except to the extent that they may be inconsistent with any other provision of this Agreement.

(c) Section Three

This section should contain a reasonably comprehensive list of the clinical duties and activities required of the particular position. It will vary according to the specialty and the nature of the appointment. It should also reflect any relevant college requirements.

The list of clinical duties might include some or all of the following activities:

- outpatient & other clinics	- ward rounds & ward work
- pre-theatre assessments	- operating lists
- post-operative recovery	- reading & responding to patient referral letters
- multi-disciplinary meetings, case conferences and reviews	- research & study related to the treatment of a specific patient
- telephone and other ad hoc consultations	- community health promotion activities
- discussions and meetings with care givers & patients' families	- preparation of police, coroner, legal, ACC & similar reports

(d) Section Four

This section should contain a reasonably comprehensive list of the non-clinical duties or other professional activities not covered by Section Three, required of the particular position or individual.

The parties note that the Council of Medical Colleges of New Zealand endorses that these non-clinical or Section Four activities should make up at least 30% of the total job size, not counting the average hours worked on the after-hours on-call rosters and any Section Five duties (refer Clause 11.6 above).

A list of non-clinical duties might contain any or all of the following activities:

- CME & professional self development	- teaching, including preparation time
- audit & quality assurance and improvement activities	- supervision & oversight of others
- grand rounds	- service or department administration
- research	- planning meetings
- clinical pathway development	- credentialling

(e) Section Five

If the position has a clinical leadership or service management role, this section should contain an agreed description of those duties.

(f) Section Six

If the position requires it and the parties agree, this section may contain a list of specific objectives which will be reviewed and updated in accordance with agreed timeframes.

(g) Section Seven

Job descriptions should detail any other matters such as Treaty of Waitangi obligations and the Health and Safety in Employment Act requirements.

49 PROTECTIVE CLOTHING

49.1 Where the employer requires an employee to wear a particular uniform, this shall be supplied free of charge but shall remain the property of the employer. Suitable protective clothing shall also be provided at the employer's expense where the duty involves a risk of excessive soiling or damage to uniforms or personal clothing, or cross-infection.

49.2 All items of uniform clothing supplied by the employer shall be laundered or dry-cleaned at the employer's expense, as and when required. Each case is to be determined on its merits by the employer.

49.3 Damage to personal clothing - an employee may, at the employer's discretion, be compensated for damage to personal clothing worn on duty, or reimbursed dry-cleaning charges for excessive soiling which did not occur as a result of the employee's negligence or failure to wear the protective clothing available. Each case shall be determined on its merits by the employer.

50 EMPLOYERS' POLICIES, PROCEDURES AND PERSONAL FILES

50.1 The parties' acknowledge the right of an employer to develop its own internal policies and procedures. However such policies and procedures are not incorporated within this agreement and to the extent that there is any inconsistency between an employer's policies or procedures and a provision of this agreement, the provision of this agreement will prevail.

50.2 Employees are entitled to have reasonable access to their personal file held by the employer who will advise them of any significant amendments.

51 MEDICAL EXAMINATIONS

Where the employer has good reason to be concerned that an employee's performance of their duties and responsibilities may be affected by their health, the employer is entitled to require the employee to undergo a medical examination by a mutually agreed medical practitioner(s) who may, where necessary and subject to the provisions of the Privacy Act, report to the Medical or Dental Councils.

52 APPOINTMENTS

- 52.1 The parties agree that the appointment of senior medical and dental officers, including clinicians appointed to leadership roles, whether to permanent or temporary positions and whether as employees or contractors shall be impartial, fair and transparent.

The employer also agrees to adopt appointment processes that will ensure only suitably qualified persons are employed or otherwise engaged to provide or manage clinical services.

Accordingly, before reaching a decision to engage the services of a senior medical or dental officer the employer shall consult other affected employees, (i.e. those in the same service or on the same roster) as to the need for such an engagement; the nature of the role; the level of skills, qualities and experience appropriate for the role or appointment. Following this consultation, a new or revised job description, if required, shall be prepared.

- 52.2 The appointment committee shall be convened by the chief executive (or their nominee) who shall ensure that:

- (a) The clinical director or delegated senior medical staff member of the relevant department is part of the appointments committee;
- (b) The Senior Medical Staff Committee (or equivalent body agreed with the Association) is invited to appoint at least one member of the appointments committee who shall be from the same or similar discipline to the position advertised; and
- (c) In appropriate circumstances, an independent external senior member from the relevant professional college or association may be invited to be part of the appointments committee.

- 52.3 Credentialling requirements at the district health board should be included as part of the appointment process.

52.4 Fixed Term Appointments

An employee may be engaged for a fixed-term provided there are genuine reasons based on reasonable grounds for the particular fixed-term appointment. The employer shall advise the employee of those reasons at the time of the appointment and record them in the letter of appointment or job description.

53 FACILITIES AND EQUIPMENT

53.1 Workplace Conditions, Resources and Accommodation

The employer recognises the importance of providing good quality, suitable and safe workplace conditions, resources and accommodation.

Each employer and the Association will work together through an agreed process in evaluating the extent to which these workplace conditions, resources and accommodation are provided and to develop an agreed plan for remedying any deficiencies.

53.2 An employer should provide sufficient good quality overnight accommodation for each employee who, as a result of the nature of their duties, requires accommodation in the hospital overnight.

53.3 This accommodation should be secure, private, quiet and self-contained. It should be within reasonable walking distance of the workplace, having regard to any emergency and other duties the employee may be required to attend to overnight. The accommodation should include at least: a bedroom or bed-sitting room; private bathroom with toilet and shower facilities; access to basic kitchen facilities for cooking or heating food; a television set, a comfortable lounge chair and a work-station or desk with telephone, computer terminal and internet access.

53.4 Where this accommodation is not presently or sufficiently provided the employer and the Association shall work together through the Joint Consultation Committee (Clause 55) to develop an agreed solution.

- (d) To discuss and advise on workforce, employment relations, and human resource issues impacting on the senior medical workforce.

2. REPRESENTATION, MEMBERSHIP AND ORGANISATION

- (a) The national joint consultation committee shall comprise six representatives from each of the two parties. There will be two co-chairs, one from each of the two parties. A quorum shall consist of a minimum of three representatives from each of the two parties, of which one shall be a Chief Executive.

- (c) The Association's representatives shall include senior medical/dental officers employed by DHBs (whose actual and reasonable travel and accommodation costs will be met by the DHBs) who will be entitled to paid leave under Clause 29 of the national DHB collective agreement.
- (d) The Association's representatives shall include its Executive Director (or where unable the Assistant Executive Director).

- (e) The DHBs' representatives shall include at least one chief executive.
- (f) Agreed experts and advisers may be invited to participate from time to time.
- (g) The national joint consultation committee shall meet at least quarterly and may contribute to the work programme of individual DHB-ASMS Joint Consultation Committees.
- (h) The Committee's decisions require the agreement of the two parties.
- (i) Communications from the Committee shall be jointly agreed by the two parties prior to publication.
- (j) All actual and reasonable costs will be met by the district health boards.

- (b) Where the roster frequency increases for reasons other than scheduled leave the employer will make every reasonable endeavour to recruit locums or permanent staff to minimise such occurrences.

In the absence of a locum:

- (i) where the period of roster frequency is in excess of 4 weeks the availability allowance paid is increased by 5 sessions throughout the period of higher frequency rostering; or
- (ii) reach agreement with effected empdyees on the compensation payable during that period.
- (c) Where immediacy of availability and frequency of callback is onerous, extra sessions may be granted in recognition of these factors.

For the purposes of this clause "Benchmark" means 10 four-hour sessions per week (520 per annum) inclusive of sessional payments for on-call work, excluding availability allowance, and "Session" means four hours.

In exceptional circumstances the employer may exceed this. Subject to the approval of the employer, the employee may elect alternative recognition for the allowance.

Bay of Plenty District Health Board

Where the vacancy involves a full weekend (Friday night-Sunday) or a public holiday the additional payment shall be calculated at 2.5% or 1.0% respectively of their full-time equivalent base salary.

Notes:

- 1 All other agreements that may exist prior to this previously applicable collective agreement with individual employees may only be replaced with the above entitlement if agreed with the individual employee.
- 2 Employees shall not be required to work a roster calling for greater than 1:3 availability. Where there are insufficient employees to ensure a roster of at least 1:3 the parties undertake to use best endeavours to resolve the problem to their mutual satisfaction.

Hawkes Bay District Health Board

The employer shall pay an SMO on an on call roster either an average weekly payment based on the annual calculated cost of on call, divided by the roster ratio (e.g. 1:5); or by payment for every separate occasion or 'event' the employee is on call. The 'average' or 'event' approaches are based on the same criteria. The approach adopted by each roster group must be at the agreement of both the employer and the whole roster group.

The On Call rate (weekday or weekend) is calculated on a points system using the following criteria:

- number of contacts per call after 10 pm
- immediacy
- length of attendance, and
- Registrar support.

As shown in table 1 below, points are allocated based on the level of criteria met. The total points scored will determine the appropriate call category (from A(x) to E), as shown in table 2 below.)

<u>Category</u> Hourly Rate Step 9 Specialist Scale at T2	<u>Points Range</u>	<u>Weekdays Loading x Step 9 (x 2)</u>	<u>Weekend & Stats Loading x Step 9 (x 2)</u>
No of events pa		249	115

C	17-21	1.781	3.96
D	11-16	1.386	2.38
E	0-10	0.792	1.58

On an event basis (payment for each separate occurrence) the rates above apply.

Example – individual criteria “B” SMO does weeknight = $(2.375 \times T2 \text{ Step } 9)$
 - does weekend = $(4.75 \times T2 \text{ Step } 9)$

On an average basis the total annual cost of on call activities is calculated and the payment split between those participating on that roster.

The annual total cost is calculated as 249 x weekday amount (based on relevant criteria score) added to 115 weekend / statutory day amount (based on same score)

Example – for team of 5 on roster (1:5) and criteria “B” :-

Annual amount is based on “B” = $((2.375 \times T2 \text{ step } 9) \times 249) + ((4.75 \times T2 \text{ step } 9) \times 115)$.

The total then divided by 5 and paid by fortnightly instalments.

- a) The allowance must be fair to all SMOs and be seen to be fair
- b) The allowance must take into account frequency of call, immediacy of response, immediacy of attendance at work, availability/ level of competence of duty doctors and provision of electronic aids. Greatest weight should be given to frequency of call.
- c) When the circumstances set out above change (for example roster frequency changes through an increase in roster participants) the allowance should change in line with the agreed formula and in a transparent way
- d) Call of 1:1 is not normally acceptable for extended periods and should be avoided if at all possible. The key consideration in this situation is the health and safety of the staff involved in such a roster.
- e) Call of 1:2 is undesirable and should be avoided if at all possible. The key consideration in this situation is the health and safety of the staff involved in such a roster.
- f) The availability allowance should not be adjusted or used for recognition of any other aspects of an SMO's job.
- g) No SMO should be disadvantaged as a direct result of implementing the formula below. This means that where an availability allowance reduces (as a direct result of implementing the formula below) from the payment presently made as an availability allowance, the difference will be grand-parented as a personal allowance as a percentage of salary for those affected. (Should for any reason the availability allowance increase in the future the personal allowance will be abated in accordance with the formula).
- h) The roster frequencies used for the purpose of introducing this formula are based on frequencies as at the date of ratification. Should the frequency of a roster reduce at later date then the agreed formula will apply and grand-parenting will not apply
